JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

DIPHTHERIA ANTITOXIN—REGULATION OF THE SALE OF.

SEC. 1. No person or dealer in diphtheria antitoxin shall sell, deliver, or cause to sell or to be delivered diphtheria antitoxin to any person, unless he receives from such person the name and address of the person to whom said diphtheria antitoxin is to be administered.

SEC. 2. All persons engaged in the sale of diphtheria antitoxin shall, immediately upon the sale of the same, notify the board of health in writing of such sale, the name of the person to whom sold, and the name and address of the person to whom said diphtheria antitoxin so sold is to be administered.

SEC. 3. Any violation of the above regulation shall be punished according to law. [Regulation, board of health, adopted Oct. 11, 1910.]

ERIE, PA.

MILK—REGULATION OF THE PRODUCTION, CARE, AND SALE.

SEC. 1. No person or persons, firm, or corporation shall sell milk or cream in the city of Erie without first, annually before the 1st day of July, making application to the board of health, which application shall set forth, his, her, or their name or names, together with the location of their route or place of business, and the name of the owner of and the location of the dairy from which they obtain said milk or cream, and such other information relating to the care of said dairy and the production and care of milk and cream as may be deemed necessary by said board of health, said application to constitute an agreement between the applicant and the board of health for the faithful compliance with all the rules and regulations of said board, and obtaining from the board of health a license to carry on such business, which license shall be displayed in every store or wagon from which said milk or cream is sold.

SEC. 2. Each and every person or persons peddling milk or cream in the city of Erie shall have the wagon or other vehicle from which milk or cream is sold inclosed and conspicuously marked in plain letters not less than 3 inches high, with his, her, or their name or names and the number of the license under which said milk or cream is sold.

SEC. 3. No milk or cream shall be sold, offered for sale, or distributed in the city of Erie unless each and every animal in the herds from which said milk or cream is obtained shall have been examined within one year, to the satisfaction of the board of health, by a veterinarian or other inspector approved by said board, such examinations to include the tuberculin test, when such test may be deemed advisable or necessary by the board of health, and said veterinarian shall furnish to the owner or owners of said herds a certificate, on blanks to be furnished by the board of health, which certificate shall be sworn and subscribed to before a duly authorized magistrate.

SEC. 4. No person or persons, firm, or corporation shall offer or expose for sale, sell, or have in their possession, with intent to sell in the city of Erie, any milk or cream, buttermilk, or skimmed milk to which has been added borax, boracic acid, salicylate of soda, benzoate of soda, sulphite of soda, formalin or formaldehyde, or any other chemical, compound, or foreign substance whatsoever, including ice or water; the percentage of fats in milk not to be less than 3.25 per cent, and that of cream not less than 18 per cent, and vessels or cans containing buttermilk or skimmed milk must be plainly labeled as such.

SEC. 5. No milk or cream shall be sold or handled by any person or persons in whose family or residence there is a case of contagious or infectious disease, nor from any dairy or premises on which such diseases exist, except by permission of and in the manner prescribed by the board of health.

SEC. 6. No milk or cream shall be sold or exposed for sale in the city of Erie except from cows stabled under light, dry, and well ventilated conditions and in all other respects conforming to the requirements set forth in the following rules:

Rule 1. Each cow shall have at least 3 feet in width of floor space when fastened in stanchions, and in all cases where no adequate artificial means for ventilation are provided, each animal shall have an air space of at least 500 cubic feet.

Rule 2. All stables for shelter of said cattle shall be provided with a tight, dry floor. The manure drop shall be water tight, and if constructed of wood, shall be asphalted, tarred or otherwise made nonabsorbent.

Rule 3. The walls and ceilings of said stables shall be whitewashed whenever it may be deemed necessary by the board of health.

Rule 4. Manure shall not be allowed to accumulate in large quantities in stable yards, nor near the buildings where the cattle are kept, and when stored temporarily in such places it shall be removed at least once a week to a distance of at least 50 feet from said stable. The stable yards shall be drained and kept in a clean, dry condi-

tion, and no accumulation of household garbage, vegetable or other putrescible matter shall be allowed to remain, or decay, in said stable yards.

Rule 5. Cattle shall at all times be kept in a clean condition. Manure must not be allowed to collect upon the udder, sides, teats, or belly of any milch cow. Milch cows must be groomed daily and all long hairs clipped from their udders and flanks. The udder and teats of the cow shall be thoroughly cleaned before milking, using for this purpose a clean damp cloth only.

Rule 6. No milk or cream shall be sold or offered for sale or distributed in the city of Erie obtained from any cow that has calved within 5 days, or from a cow which will calve within 21 days.

SEC. 7. No milk or cream shall be sold or exposed for sale in the city of Erie except from cattle fed and watered under proper sanitary conditions, and all food given shall be good and wholesome and the water supply free from all contamination by stable or household drainage. No milch cow shall be fed ensilage or any other fermented food for at least six hours previous to milking.

SEC. 8. All milkers and other attendants employed in any dairy, the milk or cream from which is sold or offered for sale, or delivered, in the city of Erie, shall be personally clean and healthy, and before milking or caring for the milk or cream their hands shall be washed and their clothes changed and a clean suit, to be used for this purpose only, shall be put on and worn during milking time.

SEC. 9. All receiving stations at which milk or cream is delivered must be properly inclosed in the manner and form prescribed by sections 11, 12, and 13. The depositing of vessels containing milk and cream on street corners or other open places is hereby prohibited. The temperature of milk and cream in transit must at all times remain at or below 50° F.

SEC. 10. All milk pails, cans, and other receptacles used for the production and transportation of milk or cream shall, before each use, be thoroughly washed with water and soap, or soda, and then scalded with boiling water or live steam, thoroughly aired and kept upside down in a cool place, and they must not under any circumstances, be rinsed with cold water before using. All milk pails used shall have a top diameter not exceeding 8 inches, and all receptacles used for the production and transportation of milk must be of the same or smaller diameter.

SEC. 11. No milk or cream shall be kept for sale or distribution or handled, transferred to or from cans or containers, or stored, in any stable or similar place, or in any room used wholly or in part for domestic or sleeping purposes.

SEC. 12. Milk or cream shall be stored or regularly mixed, cooled, or poured from cans only in a room which is not connected in any way with the stable or stables or yards in which cattle are kept or milked; and each milk room shall be well lighted and ventilated in the manner and form approved by the board of health; said room shall be provided with a water-tight floor, and all doors and windows must be properly screened to exclude animals, flies, and vermin of all kinds. The walls and ceilings of all such rooms must be sheeted or ceiled and must be painted or whitewashed at least once each year; such rooms must also be kept constantly neat and clean, no rubbish or refuse of any kind being allowed to accumulate.

SEC. 13. No water-closet or privy shall be in the aforesaid room nor in any room connected directly therewith, nor shall dogs or cats or other domestic animals be allowed in these rooms at any time.

SEC. 14. Whenever milk or cream is filtered or strained, cooled, or stored in a room, said room shall be such as is described in sections 12 and 13.

SEC. 15. Milk or cream kept for sale in any store, shop, market, bakery, or other establishment shall be always kept in a covered cooled box or refrigerator, properly drained and cared for, and while therein shall be tightly covered or closed, and only in such location and under such conditions as shall be approved by the board of health, nor shall any milk or cream be sold from places covered by this section except the same shall be in air and dust proof containers, the use of which has been approved by the board of health, and which have been received by the dealer properly filled and sealed, such filling and sealing to have been made at the dairy or wholesale plant from which said milk was produced before its receipt by the milk dealer or peddler.

SEC. 16. All vehicles from which milk or cream is sold in this city shall, during the months of June, July, August, and September, be equipped with ice boxes which shall be of sufficient size and kept thoroughly clean, and when said vehicles are in use shall be kept full of ice and the temperature of said milk or cream shall at all times be kept at or below 50° F. during the whole year.

SEC. 17. All cans, containers, or vessels of any sort used in the sale, delivery, or distribution of milk or cream to the consumer must be cleaned and sterilized (boiled, baked, scalded, or steamed) by the dealer before they are again used for the same pur-

pose, and containers must not be filled with milk or cream except at the dairy or milk depot from which distribution is made.

SEC. 18. No milk or cream shall be offered for sale in the city of Erie showing a higher bacterial count than 100,000 bacteria per cubic centimeter.

SEC. 19. Loose milk and bottled milk shall under no circumstances be carried, delivered, or sold from the same wagon. All pasteurized milk and cream sold in the city of Erie shall be properly labeled as such, and the date of its production and pasteurization shall be plainly stamped thereon.

SEC. 20. No metallic card or card tickets shall be used in connection with the sale or distribution of milk or cream in the city of Erie, but instead thereof a coupon ticket shall be employed, and such ticket shall be canceled and destroyed after being once used.

SEC. 21. Under no circumstances shall a milk or cream dealer in the city of Erie, or his or her employees, take from a quarantined house any money, tickets, cans, containers, etc., or enter such a house for any purpose whatsoever without written permission from the board of health.

Any person or persons who shall violate any section or part thereof of the rules and regulations of the board of health shall, upon conviction therefor before a duly authorized magistrate, be sentenced to pay a fine not less than $5 nor more than $100, and in default of the payment thereof, with costs, shall undergo imprisonment in the county jail for a period not to exceed 30 days. [Regulations, board of health, as amended May 19, 1911.]

FOODSTUFFS—PROTECTION OF.

No person or persons, firm or corporation, shall keep, expose, or offer for sale, in any place in the city of Erie, including stores, wholesale, retail, public or private markets, or from any conveyance or vehicle whatsoever, meats of any kind, breadstuffs, cakes or pastries, confectionery of any kind, unwashable fruits or vegetables, or any other foodstuffs presenting moist surfaces, on which dust or filth from any source which may contain bacteria in any form, may gather or be deposited, or which may be polluted in any manner by animals, insects or any other vermin, unless the same be contained in dust and dirt proof cases or receptacles. And all washable fruits and vegetables, and other articles of food, when displayed outside of any building, in any open window or doorway, or upon any sidewalk, street, alley, or other thoroughfare, shall be elevated to a distance of at least 18 inches above the floor or sidewalk. [Amendment to regulations, board of health, adopted Mar. 3, 1910.]

BAKE-SHOP PRODUCTS TO BE WRAPPED IN PAPER.

No bake-shop product shall be sold or offered for sale in the city of Erie, unless the same shall be closely wrapped in a clean paper covering, said paper covering to be impervious to any pollution whatsoever from dust, flies, or any vermin, nor from the hands of any person or persons engaged in its sale, said wrapping to be done at the shop or plant where said product is made. The use of newspapers or any other waste paper for such wrapping is strictly prohibited. [Amendment to regulations, board of health, adopted May 19, 1911.]

GARBAGE AND REFUSE—REMOVAL OF.

All garbage, refuse, offal, or other waste material, shall be collected and removed from private residences, promptly, thoroughly, and in a cleanly manner at least once a week, from November 1 to April 30 inclusive, and at least twice a week from May 1 to October 31, inclusive, and from hotels, restaurants, meat markets, slaughterhouses, tallow rendering plants and fish-dressing establishments daily. [Amendment to regulations, board of health, adopted May 19, 1911.]

PRIVY VAULTS—CONSTRUCTION OF.

All privy vaults in the city of Erie shall not be less than 6 feet deep and shall not be erected within 20 feet of any building used or occupied for residence purposes, nor within 100 feet of any well or spring the water of which is used for drinking purposes; neither shall such a vault be dug within 10 feet of any street, or 5 feet of any alley, and such privy vaults shall have 9-inch walls, constructed of hard-burned brick or stone, laid in cement mortar, or of concrete, with bottom and sides cemented so as to be water-tight; size to be not less than 4 feet in diameter and 6 feet deep. [Amendment to regulations, board of health, adopted May 19, 1911.]
